- Support Block A (0)
- Support Block B (0)

Two Alternates: _____

Extended Day Course – Optional

Optional courses offered outside of the regular timetable (early morning or after school). To apply for these classes students need to submit an **application form** through Microsoft Forms by **March 10, 2024**. Links for these applications can be found on the MEI Schools website and in the MYED BC course request portal.

APEX: Student Leadership 9 

Junior Worship Leadership 9 

Renaissance Singers 9 

Drumline 9: audition in September. No Application Form required

Important Notes – Please read carefully

Note 1. Apply through the Application Form by March 10, 2024. Use QR codes below.

English Language Arts 9 Honours

Science 9 Honours

Application forms are also found in the MyEd course request portal and the website above. The English and/or Science departments will make the final selection upon review of the student's grade 8 MEI academic English and/or Science record.

Note 2. This course is designed for students who need additional preparation for Math 9 or who prefer the Workplace Math path.

Note 3. Please read the BC Second Language Information on the back of this sheet.

Note 4. Learning Support Blocks are for designated students only. Each LS block takes the space of 4 elective credits. For more information about support blocks please contact our school counsellors or our LS teachers, Mrs. Grim & Mrs. Dean.

BC SECOND LANGUAGE INFORMATION

As you are considering whether or not to carry on your education with a second language beyond grade 8, it is important to take into account the following information:

High School Graduation Requirement

A second language is **optional in grades 9 – 12** and is not required for high school graduation.

In order to take French or Spanish 10, 11 or 12 at MEI, students must have successfully completed French 9 or Spanish 9. Students can switch from French 8 and move on to Spanish 9 without prior Spanish knowledge.

University Admission Requirements

At this time a second language is **not** required for general admission to:

- ✓ British Columbia Institute of Technology
- ✓ Kwantlen Polytechnic University
- ✓ Trinity Western University
- ✓ University of the Fraser Valley
- ✓ University of British Columbia (Okanagan Campus only)
- ✓ University of Northern British Columbia
- ✓ University of Victoria
- ✓ Most other BC Colleges and Bible Schools.

A grade 11 second language is not always required for students transferring to SFU or UBC after completing a full year of university transfer courses at UFV, KPU, TWU or UVic, etc.

A grade 11 second language is required for direct general admission to **Simon Fraser University** and **University of British Columbia (Vancouver Campus)**.

A grade 11 second language, or equivalent, is required for **all** students planning to complete a **Bachelor of Arts degree** at the **University of the Fraser Valley**. Students without an additional grade 11 language, will need to complete a first year modern language course as part of their university studies.

A grade 12 second language is required for **all** students planning to complete a **Bachelor of Arts degree at the University of British Columbia (Vancouver Campus)** even if they are transferring from another post-secondary institution (PSI). Students without an additional grade 12 language must take a language as part of their university studies.

University of British Columbia does not take into account a “challenged” language 12 mark as part of calculating student average of their academic grade 12 courses for admission selection purposes. Students wanting their modern language 12 (e.g., French 12 or Spanish 12) mark to count as one of their required academics must take the language 12 as a course.

Six Surprising Benefits of Learning Another Language

1. Learning a new language could improve your memory. There’s evidence that learning vocabulary boosts memory, but it’s more than just simple repetition. Delving into another language can make you more mentally alert because you’re also paying attention to body language cues.

2. Being bilingual can make you a better multitasker. Science suggests that bilingual speakers demonstrate an increased capacity for problem-solving. Using cognitive muscles to navigate multiple languages can make you more adept at juggling tasks in other ways.

3. Knowing other languages may encourage cultural appreciation. Learning a new language could contribute to greater tolerance because of the exposure to a variety of cultures. Some studies show there is a correlation between being bilingual and having a more positive outlook.

4. Speaking other languages can make you a better communicator. It’s not just about knowing how to express yourself. It’s also about the ways other languages can help you understand your own.

5. Learning a language can encourage creativity. One of the natural outcomes of being versed in another language is immersing yourself in that culture. The process can spark connections and shift paradigms within your own world.

6. Being bilingual may make your brain bigger. Research suggests that being bilingual has noticeable benefits when it comes to the size of your brain, particularly growth in the cerebral cortex and hippocampus. Like the other muscles in your body, the brain can get bigger with exercise. One of the best ways to keep your mind active is to learn, speak, and read in other languages.
